Tobacco Stocks Report as of October 1, 1964

U. S. DEPARTMENT OF AGRICULTURE AGRICULTURAL MARKETING SERVICE TOBACCO DIVISION

The Tobacco Stocks and Standards Act provides for a quarterly report of tobacco stocks. These reports, based on information filed by manufacturers, dealers, and others, are prepared by the Tobacco Division of the Agricultural Marketing Service.

Stephen E. Wrather Director, Tobacco Division.

Stocks of foreign-grown cigar leaf - FARM-SALES WEIGHT	18-19

STOCKS OF LEAF TOBACCO OWNED BY DEALERS AND MANUFACTURERS 1/2/

Total inventory of leaf tobacco higher than a year ago

Leaf tobacco inventories in the United States and Puerto Rico totaled 5,024 million pounds (farm-sales-weight) as of October 1, 1964, on the basis of the quarterly stocks reports of dealers and manufacturers. This is an increase of 270 million pounds compared with a year earlier (4,754 million). Tobacco growers marketed around 775 million pounds during the third quarter (July-September 1964), consisting mostly of flue-cured but including some Maryland and cigar leaf. During the corresponding period last year 790 million pounds were marketed by growers.

The marketing year for all kinds of tobacco except flue-cured and cigar wrapper is on an October-September basis (table 3). The indicated total disappearance (exports plus domestic consumption) during the 1963-64 marketing year for all U. S. grown types combined for their respective periods was 2,076 million pounds, compared with 2,033 million during the previous year. Indicated domestic consumption of U. S. grown tobacco was 1,467 million pounds, 2.4 percent below the previous year. In addition to the U. S. grown tobacco, approximately 202 million pounds (farm-sales-weight) of imported tobacco was used by domestic manufacturers during the past year (193 million the year before). In turn, the U. S. exported 609 million pounds during the 1964 marketing year (530 million during the previous year).

Stocks as of October 1, 1964, included 1,173 million pounds (farm-sales-weight) of leaf tobacco under Government loans (724 million as of October 1, 1963). These loan stocks were divided as follows: Flue-cured, 818.8 million pounds; burley, 265.4 million; Maryland, 16.6 million; fire-cured, 42.1 million; dark air-cured, 21.4 million; and cigar-leaf, 9.1 million.

^{1/} Figures quoted for type totals in this summary are the farm-sales-weight equivalent of reported stocks except foreign-grown leaf which is converted to an unstemmed equivalent basis only. (See tables in body of report for reported weight basis.) This report is issued quarterly.

^{2/} All Government loan stocks are reported by Grower Cooperatives, which are considered dealers for stocks-reporting purposes.

Flue-cured, Burley, and Maryland stocks show increases Oriental substantially lower

Stocks of <u>flue-cured</u> tobacco on October 1, 1964, were 2,720 million pounds compared with 2,627 million reported on hand a year ago. Marketing of the 1964 crop, currently estimated at 1,364 million pounds, began in July, and sales by grovers totaled around 760 million pounds by the end of September. During the corresponding quarter last year 775 million pounds were sold.

Burley stocks of 1,412 million pounds represented an increase of 184 million compared with the previous October 1. Based on October 1 stocks, total disappearance of burley tobacco during the marketing year just ended (October 1963-September 1964) amounted to 571 million pounds compared with 584 million during the 1962-63 period. Indicated domestic consumption was 517 million pounds (down 14 million), and exports were 54 million (up one million).

Stocks of Maryland tobacco were 89.5 million pounds, an increase of 3.5 million from the previous October 1. Sales of the 1963 crop on the auction markets were completed in July 1964. Disappearance of Maryland during the 1963-64 marketing year was 30.5 million pounds, about the same as for the previous year. Domestic consumption amounted to 18.0 million pounds (19.5 million in 1962-63), and exports were 12.5 million (11.2 million in 1962-63).

Foreign-grown cigarette and smoking tobacco stocks (Oriental) were 228.1 million pounds-substantially below last October 1 (264.7 million).

DARK TOBACCO STOCKS

Overall fire-cured and dark air-cured stocks higher, although Virginia types lower

Fire-cured tobacco stocks, reported as 118.3 million pounds, were 4.8 million higher than a year ago. Increases were reported in Types 22 and 23, but stocks of Type 21 were 3.4 million pounds below a year earlier. Fire-cured stocks on October 1, 1964, were divided by types as follows: Virginia, 16.8 million; Eastern District Kentucky and Tennessee, 79.7 million; and Western District, 21.8 million. Disappearance of fire-cured during the 1963-64 marketing year totaled 51.1 million pounds compared with 49.9 million during the previous year. Exports of 28.1 million pounds were 3.3 million larger than during the previous marketing year. Domestic consumption was 23.0 million compared with 25.1 million for 1962-63.

Dark air-cured tobacco stocks on this October 1 were 65.3 million pounds, an increase of 2.0 million compared with holdings a year earlier (63.3 million). Stocks of One Sucker and Green River were higher, but those of sun-cured were lower. Inventories on this October 1 of One Sucker were 39.3 million pounds; Green River, 21.8 million; and Virginia sun-cured, 4.2 million. Disappearance of dark air-cured tobacco during the 1963-64 marketing year was 23.2 million pounds, 1.4 million above the figure for the previous year. Exports were 3.5 million pounds--0.2 million above those of the year before, and domestic consumption was 19.7 million--up 1.2 million.

CIGAR LEAF STOCKS

Holdings of domestic cigar leaf up slightly from a year ago Stocks of foreign-grown cigar leaf up sharply

Cigar-leaf stocks of all domestic types including Puerto Rican totaled 303.9 million pounds (farm-sales-weight) on October 1, 1964--2.6 million above a year earlier (301.3 million). Stocks of foreign-grown cigar-leaf totaled 83.2 million pounds (unstemmed equivalent) compared with 66.5 million reported the previous October 1.

Overall stocks of the <u>cigar-filler</u> types of 208.7 million pounds were 10.5 million above those on the previous October 1 (198.2 million). Increases were reported in stocks of Types 41 and 46. Pennsylvania Seedleaf stocks this October 1 were 138.1 million pounds; Ohio filler, 19.2 million; and Puerto Rican filler, 51.4 million. Disappearance of the filler types for the 1963-64 marketing year totaled 78.3 million pounds—an indicated decrease from the previous year (89.5 million). Domestic consumption was 77.6 million and exports 0.7 million pounds.

Cigar-binder stocks were 70.6 million pounds on October 1, 1964, down 6.9 million from a year earlier (77.5 million). Decreases were reported in all types. Connecticut Valley Broadleaf stocks this October 1 were 14.6 million pounds; Connecticut Valley Havana Seed, 8.3 million; Southern Wisconsin, 22.9 million; and Northern Wisconsin, 24.8 million. Disappearance of the cigar-binder types totaled 30.6 million pounds during the 1963-64 marketing year (28.4 million in 1962-63). Exports were 1.6 million pounds compared with 1.2 million a year earlier, and domestic consumption was 29.0 million, slightly above the previous year's figure (27.2 million).

Shade-grown cigar leaf stocks were 24.6 million pounds compared with 25.6 million a year ago. Stocks of both types were lower. Holdings of Type 61 were 15.8 million, and of Type 62, 8.9 million.

Stocks of Cuban leaf (Havana) were reported at 13.5 million pounds—a decrease of 6.9 million from a year ago. Holdings of Philippine Islands (Manila) were 15.7 million pounds; Sumatra and Java leaf, 4.9 million; Brazilian leaf, 10.2 million; Colombian, 15.4 million; Dominican Republic, 14.6 million; Paraguay, 2.7 million; and other foreign-grown, 6.1 million.

Stocks represented in tobacco sheet show decrease

Stocks of leaf represented in inventories of "tobacco sheet" totaled 7.0 million pounds (reporting weight) compared with 7.7 million on the previous October 1. Of the total in "tobacco sheet" this October 1, 4.7 million pounds were for use in cigarettes and smoking tobacco, and 2.3 million for cigar binder, including a small quantity for wrappers.

^{1/} Types 11-37 are reported on the basis of packed weight.

^{2/} Farm-sales-weight equivalent based on unstemmed sweated weight factor.

^{3/} The instructions for reporting unstemmed cigar-leaf of the domestic types require that dealers and manufacturers indicate the weight basis on which the tobacco is reported, namely, farm-sales weight, marked weight, or sweated weight. The stocks are converted to the farm-sales-weight equivalent on the basis of average factors reflecting the percentage reported each quarter in each of these three categories.

Table 2. -- Stocks of leaf tobacco owned by dealers and manufacturers, by types, converted to a farm-sales-weight equivalent, October 1, 1964, compared with other quarters 1/2/

 $[\]underline{1}/$ Totals include stocks of leaf reported in tobacco sheet. See separate reporting in tables 4 and 5.

Revisions.

^{2/} For factor used in converting weights see table 1. Conversion factors for stemmed stocks for some domestic types of tobacco slightly revised for use beginning July 1, 1964 from those previously used. No revisions were made in previously published figures. Farm-sales-weight equivalent of stocks of imported tobaccos shown in table A page 18.

^{3/} For explanation of stocks included in this classification, see footnote 5 on page 14.
4/ Foreign-grown leaf is converted to an unsteamed equivalent basis. Also see footnote 2.

 $[\]underline{1}$ / Annual disappearance for a type is calculated for the marketing year established for that type, the year beginning on the quarterly reporting date on which stocks of the type are at their lowest point and before the new crop enters stocks.

^{2/} The carryover stocks have been tabulated separately according to broad groupings of ownership, namely manufacturers, under loan, and all other. "Other" reflects stocks reported by tobacco dealers and stocks held in the United States by representatives of foreign manufacturers. The quantities shown as owned by dealers may include some tobacco held by dealers which is earmarked for sale to domestic manufacturers or for export.

^{3/} Subject to revision.

^{4/} November 1 estimate, U. S. Crop Reporting Board, SRS.

^{5/ 1963} Maryland production based on sales.

Table 4.--Stocks of leaf tobacco, including leaf in tobacco sheet 1/, by types and, where applicable, by groups of grades, owned by dealers and manufacturers, October 1, 1964 compared with October 1, 1963, and July 1, 1964

- Represents leaf tobacco in stocks of reconstituted or processed tobacco sheet.
- Subject to revision.
- Summary according to groups of grades reflecting a broad quality breakdown of total cigar leaf stocks.
- 4/ Includes Puerto Rican on the Island, Type 46.

 5/ Although Type 73 is defined as all domestic types of tobacco not otherwise classified, the bulk of the stocks reported in this type consists of cuttings, clippings, and trimmings. This is the result, in most instances, of the inability of reporters to designate cuttings, clippings, and trimmings in the "S" group of the types to which they properly belong.

 * Revisions.

^{1/} Total includes stocks of leaf reported in tobacco sheet. See separate reporting in tables 4 and 5.

^{2/} These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners subject to provisions of the Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress. The quantities owned by dealers and manufacturers have been tabulated separately on a type total basis.

^{3/} This table should be considered as representing only the approximate quantities owned respectively by dealers and manufacturers. The quantities shown as owned by manufacturers include tobacco which is held under dealer registries of manufacturers and also tobacco held by dealers and known to be purchased on order for foreign or domestic manufacturers. The quantities shown as owned by dealers may include some tobacco held by dealers which is earmarked for sale to domestic manufacturers or for export. All Government loan stocks are included as dealers holdings.

^{4/} Includes stocks on the Island of Puerto Rico.

 $[\]frac{5}{2}$ / For explanation of stocks included in this classification see footnote 5 on page 14.

^{1/} Totals include stocks of leaf reported in tobacco sheet. See separate reporting in tables 4 and 5.

^{2/} These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, Quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners except (a) the original growers of tobacco; (b) manufacturers who in the first three quarters of 1963, according to the returns of the Commissioner of Internal Revenue, manufactured less than 35,000 pounds of tobacco, less than 185,000 cigars, or less than 750,000 cigarettes, pursuant to the provisions of the Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress.

^{3/} Subject to revision.
4/ For explanation of stocks included in this classification see footnote 5 on page 13.

^{*} Revisions.

TABLE A.--Stocks of foreign-grown tobacco - FARM SALES WEIGHT 1/

The conversions of imported tobacco stocks shown in this table are for comparative purposes with the farm-sales-weight equivalent of United States-produced tobaccos. Stocks, overall supplies, and disappearance of the domestic types are quoted in terms of the farm-sales-weight equivalent, and the conversion of imported tobacco stocks to this basis provides a more realistic comparison. Previously, stocks of imported tobacco had been converted only to an unstemmed equivalent basis and are continued on this basis in Table 2. Also, the actual reported weight of overall leaf inventories will continue to be shown in Tables 4, 5, 6, and 7.

^{1/} Stocks of foreign-grown cigar leaf (unstemmed equivalent) are converted to farm-sales-weight by multiplying by the factor 1.16.

^{2/} Prior to July 1, 1962, stocks from Brazil, Colombia, Dominican Republic, and Paraguay were not reported separately, but were included under Other Foreign-grown Cigar Leaf, Type 84 (beginning July 1, 1962, Other Foreign-grown Cigar Leaf is designated as Type 88).
